Manufacturing

SERVICES

- ◆ Managed IT
- ◆ Managed Azure
- ◆ Managed Microsoft 365
- ◆ Managed Networking
- ◆ Managed Workstation & Security
- ◆ Technical Account Management

CHALLENGE

A major manufacturer and marketer of family entertainment products, specializing in games, children's puzzles, toys, activities and teaching tools, was accelerating its growth with several acquisitions. However, the company's IT infrastructure, staff and resources were not able to sustain the expansions.

SOLUTION

The manufacturing company reached out to Thrive to provide enhanced IT security, management and support. The Thrive team of experts evaluated the company's current state and future growth strategy. After a comprehensive assessment, Thrive simplified the company's IT support structure with an outsourcing model to reduce the strain on its in-house IT staff and resources. Thrive engineers implemented a full-service IT management solution, including Managed IT, Managed Azure, Managed Microsoft 365, Managed Networking, Managed Workstation and Security, and Technical Account Management.

RESULT

By outsourcing their IT operations to Thrive, the manufacturer was able to migrate its IT operations to an operational expense versus a capital expense to optimize budgets. The additional IT management and support provided by Thrive enabled the manufacturing company to continue its growth trajectory, meeting the IT needs of today and tomorrow. In addition, the enhanced IT security gives the company peace of mind that it is meeting all compliance and safeguards to protect its valuable data and assets.

How can Thrive help your business?

Thrive is a leading provider of outsourced IT Infrastructure designed to drive business outcomes by helping you get the most out of your IT.
