

An investment management services company turned to Thrive for a full suite of NextGen security, IT infrastructure, and cyber security solutions to support a new company acquisition.

CASE STUDY

VERTICAL

Wealth Management

SERVICES

- ◆ One-time Consolidation of Acquisition
- ◆ Office 365 Management
- ◆ NextGen Infrastructure
- ◆ NextGen Cyber Security
- ◆ End-User Security Bundle
- ◆ End-User Support

CHALLENGE

The investment and wealth management company recently acquired a new company, doubling its employees. As a result, the firm needed a robust, secure, and collaborative IT infrastructure that could accommodate the growth while keeping valuable assets and data secure.

SOLUTION

The investment and wealth management firm turned to Thrive, a trusted managed services provider, to address technology advancements and risk mitigation for its continued growth. Thrive implemented several solutions that met a wide range of stringent compliance requirements while also protecting the firm with cutting-edge cyber security measures. After the one-time consolidation/acquisition strategy, Thrive created a roadmap and delivered Office 365 Management, NextGen Infrastructure, NextGen Cyber Security, End-User Security Bundle, and End-User Support.

RESULT

The comprehensive Office 365 infrastructure and cyber security bundles delivered by Thrive create a future-proofed, compliant, and secure environment to accommodate the company's new growth. The firm also leverages Thrive's expert consultants to assist at every stage of the investment lifecycle.

How can Thrive help your business?
