

A major manufacturer of wind towers, gas turbines, oil, gas, mining, and more turned to Thrive fortify and enhance its cybersecurity.

CASE STUDY

## VERTICAL

Manufacturing

## SERVICES

- ◆ Office 365 Migration
- ◆ SD-WAN and Managed Firewall
- ◆ Managed Backups
- ◆ Managed Disaster Recovery
- ◆ Center of Excellence (CoE)
- ◆ Managed Network
- ◆ Managed On-Premise Servers

## CHALLENGE

A large manufacturer of wind towers, gas turbines, water treatment, solar power, and more for clean technology in steel, oil, gas, mining, and marine, was a ransomware victim. Its managed services provider at the time was unable to remediate the problem after the attack.

## SOLUTION

Thrive developed a comprehensive cybersecurity solution for the company. The Thrive team ensured the organization had complete control over its cybersecurity and the ability to adhere to security requirements and evolving technologies and team structures. Thrive implemented Office 365 Migration, SD-WAN and Managed Firewall, Managed Backups, Managed Disaster Recovery, a Center of Excellence (CoE) for ongoing governance, training and support, a Managed Network, and Managed On-Premise Servers.

## RESULT

As a result of Thrive's cybersecurity strategy and expertise, the company has peace of mind that its data is protected from cyberattackers, and if another attack occurs, there are solutions in place for a quick recovery to avoid downtime.

## How can Thrive help your business?

Thrive is a leading provider of outsourced IT Infrastructure designed to drive business outcomes by helping you get the most out of your IT.
