

# Disaster Recovery as a Service (DRaaS)

What happens to your business when mission-critical systems are unavailable due to infrastructure failure, security breach, human error, or a natural disaster?

- It's estimated **90%** of businesses will fail without a disaster recovery plan in place. Surprisingly, **75%** of small businesses don't have one.
- According to Gartner, the average cost of network downtime is around **\$5,600** per minute. That adds up to around **\$300,000** per hour.

Protect your critical business technology infrastructure with disaster recovery solutions from Thrive. Exceed even the most challenging Recovery Time Objectives (RTOs) and Recovery Point Objectives (RPOs) with our complete portfolio of business continuity solutions; from disaster recovery consulting and planning, to full restoration of mission-critical applications and services.

Thrive provides IT business continuity solutions that minimize data loss and provide fast, automated recovery of critical systems for protection against events that can devastate normal business operations.

## Thrive's Disaster Recovery as a Service (DRaaS)

- Real-time replication of business-critical data
- Automated recovery of protected virtual servers upon declaration of a disaster
- Recovery of critical workloads to ThriveCloud or Microsoft Azure
- Non-impacting simulated testing for recovery assurance
- Backed by industry-leading SLAs

## The Thrive Advantage

### Managed Services Provider (MSP)

Thrive provides Comprehensive IT Outsourcing, delivering end-to-end managed services and unmatched expertise to drive a highly secure and successful digital transformation.

### Security Solutions

Thrive's fully-integrated managed cybersecurity solutions provide a proactive and comprehensive approach to security management for identifying and remediating security issues. Thrive's unified cybersecurity platform enables Thrive's 24x7x365 Security Operations Center to automatically address critical security issues without client intervention.

### Consulting

Thrive addresses gaps that may exist in your organization by providing a variety of expert professional and consultative services with an agnostic approach to identifying and prioritizing risk.

### Expertise

The Thrive team is composed of technical and industry experts dedicated to ensuring that customers are able to optimize their business performance through the strategic design and implementation of a NextGen IT environment.
