

What happens to your business when mission-critical systems are unavailable due to infrastructure failure, security breach, human error, or a natural disaster?

- ◆ It's estimated **90%** of businesses will fail without a disaster recovery plan in place. Surprisingly, **75%** of small businesses don't have one.
- ◆ According to Gartner, the average cost of network downtime is around **\$5,600** per minute. That adds up to around **\$300,000** per hour.

Protect your critical business technology infrastructure with disaster recovery solutions from Thrive. Exceed even the most challenging Recovery Time Objectives (RTOs) and Recovery Point Objectives (RPOs) with our complete portfolio of business continuity solutions; from disaster recovery consulting and planning, to full restoration of mission-critical applications and services.

Thrive provides IT business continuity solutions that minimize data loss and provide fast, automated recovery of critical systems for protection against events that can devastate normal business operations.

Thrive's Disaster Recovery as a Service (DRaaS)

- ◆ Real-time replication of business-critical data
- ◆ Automated recovery of protected virtual servers upon declaration of a disaster
- ◆ Recovery of critical workloads to ThriveCloud or Microsoft Azure
- ◆ Non-impacting simulated testing for recovery assurance
- ◆ Backed by industry-leading SLAs

The Thrive Advantage
