- Thrive Helpdesk
- Technical Advisory Services

"I wholeheartedly recommend Thrive to any organization seeking a seamless transition to a Virtual Private Cloud environment. We were kept informed during every step of the migration and they were always available to address any concerns. Their expertise, commitment, and personalized approach make them an exceptional partner in the journey towards a more agile and secure IT infrastructure."

Timothy Murphy
Chief Information Officer

Challenge

The Tax Collector's Office for Polk County, Florida (TCPC), was operating on an IT infrastructure that was outdated and near the end of its life. TCPC needed a more reliable, secure, and up-to-date technology to facilitate daily operations and records for its citizens. At first, the office was considering a hardware refresh but then decided to seek an exceptional partner in the journey towards a more agile and secure IT infrastructure.

Solution

Instead of replacing expensive hardware, the Tax Collector's Office for Polk County chose Thrive's industry-leading and fully managed Thrive Cloud solutions with exceptional Service Level Agreements (SLAs) and performance. The Thrive team created a comprehensive bundle of a Virtual Private Cloud, Data Protection as a Service (DPaaS), Disaster Recovery as a Service (DRaaS), and Cybersecurity solutions that fit TCPC's budget, requirements and compliance. The ThriveCloud Platform is VMware-based and built for the most demanding workloads with 24x7 monitoring, management and support.

Result

As a result of the Thrive partnership, the Tax Collector's Office for Polk County experienced a seamless transition to the ThriveCloud Platform, enabling TCPC to accommodate the growing demand for citizen records quickly. The robust solutions also gave the office automation, visibility and control of workloads to improve efficiency and lower costs.

About Thrive

Thrive delivers global technology outsourcing for cybersecurity, Cloud, networking, and other complex IT requirements. Thrive's NextGen platform enables customers to increase business efficiencies through standardization, scalability, and automation, delivering oversized technology returns on investment (ROI). They accomplish this with advisory services, vCISO, vCIO, consulting, project implementation, solution architects, and a best-in-class subscription-based technology platform. Thrive delivers exceptional high-touch service through its POD approach of subject matter experts and global 24x7x365 SOC, NOC, and centralized services teams.
