- ◆ Microsoft O365 Management and Backup
- ◆ Managed Microsoft Azure
- ◆ SIEMaaS with 24x7x365 Security Monitoring
- ◆ Vulnerability Scanning and Management
- ◆ Managed EBMS Network Infrastructure

CHALLENGE

A new company starting a digital bank lacked an IT infrastructure and needed an MSP provider that could get the company up and running quickly. The digital banking company required an MSP company with expertise in financial business applications and tools, such as FiServe, Ennacom and Q2, and proven success in building secure Microsoft Azure environments.

SOLUTION

The company selected Thrive because of its strong relationship with an existing partner, unmatched banking expertise and all-encompassing IT solutions. The Thrive onboarding teams quickly built out the Microsoft Azure infrastructure enabling the connections to Fiserv, Ennacom, and Q2. Thrive implemented its Thrive End User Cybersecurity Bundle, including, Endpoint Security and Response, Secure DNS Gateway, Advanced Email Security, and Security Awareness Training to protect end users from advanced threats, as well as the Thrive Security Incident and Event Management as a Service (SIEMaaS) with 24x7x365 Security Monitoring and Vulnerability Scanning and Management. Thrive also delivered a fully-managed Microsoft Azure infrastructure and Managed Office 365 with backups.

RESULT

The biggest hurdle during this partnership was meeting the company's tight deadlines. Thrive exceeded expectations to deliver a best-in-class IT infrastructure with Microsoft Azure, Cybersecurity and Office 365 management. Thrive's NextGen technology solutions allowed this company's digital banking operations to launch on time, safely and securely while meeting and monitoring stringent financial compliance regulations.

How can Thrive help your business?
