- ◆ Managed Firewall
- ◆ Managed ISP
- ◆ Endpoint Management
- ◆ End-User Support
- ◆ Cybersecurity Bundle
- ◆ Managed SIEM & SOC
- ◆ Managed Egnyte Backups
- ◆ 24x7 Technical Account Support

CHALLENGE

A full-service private equity (PE) accounting firm that provides fully integrated accounting, tax, portfolio management, and other fund management and investor services fell victim to a security breach that significantly impacted the firm and its customers. The firm was seeking a Managed Services Provider to secure its operations from threats, and also enable IT solutions that could grow with the company.

SOLUTION

The PE firm needed a swift solution and was impressed with Thrive's solution delivery and communication throughout the RFP process. With its extensive experience in the PE industry, the Thrive team implemented several options that would provide protection and scalability. Thrive deployed several cybersecurity solutions, including the Thrive Cybersecurity Bundle, Managed SIEM and SOC, Managed Firewall, Managed Egnyte backups, and Managed ISP. In addition, Thrive activated a Managed O365 infrastructure with licensing and backup, as well as end-user support and access to 24x7 technical support.

RESULT

As a result of Thrive's fully-managed solutions for IT infrastructure, cybersecurity, and others, the PE firm was able to leverage a more secure and standardized platform that would allow for growth. Thrive's strategy for IT and security enables the firm to focus on its core business without the burden of keeping its data and IT operations secure and optimized.
