

Managed Endpoint Detection & Response (EDR) for Microsoft

Get the most out of Microsoft Defender by adding Thrive's security expertise and 24x7 response capabilities.

Microsoft Defender for Endpoint is a powerful security tool that many organizations already own as part of their Microsoft 365 license. Thrive's Managed EDR for Microsoft service ensures you get maximum return on your investment.

Microsoft Defender for Endpoint protects against sophisticated attacks using the latest behavioral analytics, but the solution requires continuous monitoring to reduce false positives, hunt down real threats, and ensure all devices remain protected over time.

With Thrive's Managed EDR for Microsoft service you gain:

- Configuration and management of Microsoft Defender for Endpoint
- 24x7 monitoring and investigation by the Thrive Security Operations Center (SOC)
- Integration with Thrive Cybersecurity Mesh Architecture for intelligence and orchestration
- Rapid response and remediation to mitigate threats quickly

The Thrive Advantage

Managed Services Provider (MSP)

Thrive provides Comprehensive IT Outsourcing, delivering end-to-end managed services and unmatched expertise to drive a highly secure and successful digital transformation.

Security Solutions

Thrive's fully-integrated managed cybersecurity solutions provide a proactive and comprehensive approach to security management for identifying and remediating security issues. Thrive's unified cybersecurity platform enables Thrive's 24x7x365 Security Operations Center to automatically address critical security issues without client intervention.

Consulting

Thrive addresses gaps that may exist in your organization by providing a variety of expert professional and consultative services with an agnostic approach to identifying and prioritizing risk.

Expertise

The Thrive team is composed of technical and industry experts dedicated to ensuring that customers are able to optimize their business performance through the strategic design and implementation of a NextGen IT environment.
